Australian Barge Hire

## SEA LIFT 3

# JACK-UP

## BARGE SELF ELEVATING PLATFORM

# SEA LIFT 3

### General

Type	Jack Up Barge
Operator	Australian Barge Hire Pty Ltd
Survey	Australian Maritime Safety Authority
Classification	AMSA 2D
Built	Australia
Construction	Steel
Road Transport	7 standard Semi Trailers, 2 extendable trailers (18m)
Working Depth	Up to 20 metres

### Main Dimensions

Length Overall	17.20	metres
Beam	12.90	metres
Depth	1.20	metres
Draft	0.80	metres
Displacement	80	tonnes (unladen)

### Jacking System

Jacking system	Electronic over hydraulic
Jacking Rate	10 metres per hour
Load Lift Capacity	30 tonnes
Spud Length	12,18,30 metres
Power Unit	HPU 4 x 30 kW

### Features

- 475mm Diameter Moon Pool
- Onboard Site Office
- Remote controlled jacking operation
- Remote controlled gangway access
- Certified man riding crane
- Environmental spill containment equipment
- Night lights
- Road Transportable

### Operation

“Sea Lift 3” employs radio data electronic over hydraulic controls for all barge operations. “Sea Lift 3” in standard configuration has four 12,18 or 30 m spuds, one in each corner. A central generator provides power to four electric hydraulic pumps for all barge operations. A mobile control panel, linked by radio data link to the control unit, enables the operator to easily sight all operations.

Electronic interlocks and sensors provide the operator with status indications at the control panel and prevent inadvertent operation at the spud control.
