SEA PUNT 2

SEA PUNT 2

SUPPORT VESSEL

SP 02

General

Type	Work Punt
Operator	Australian Barge Hire Pty Ltd
Survey	Australian Maritime Safety Authority
Classification	AMSA 2D
Construction	Aluminium
Road Transport	1 Boat Trailer

Main Dimensions

Length Overall	7.25	metres
Beam	2.56	metres
Height	1.51	metres
Depth	0.620	metres
Draft	0.50	metres
Propulsion	2 x 60	HP outboard motor

Features

- Clear Open Deck
- 15 knots cruise speed
- Adjustable helm height to optimise control & visibility
- Engineered bow cut-out to allow a closer more controlled access to approach the JUB legs
- Carrying capacity up to 1T & 2 crew (subject to assessment)
- Surveyed to carry maximum 6 people

Operation

Australian Barge Hire's Sea Punt 2 is a 7.25 m x 2.56 m aluminium work punt powered by twin fuel-efficient outboard engines.

Built tough for commercial operations, the vessel features in-built underfloor buoyancy, an engineered bow cut-out for controlled barge access, and is fully registered and equipped with all required safety gear.

Road-trailerable and highly versatile, Sea Punt 2 can transport personnel, core trays, skip bins, Portaloo's, cages, and drilling equipment up to 1 tonne in Class 2D waters, and is well suited to conducting or assisting with barge movements when required.
